

## **A Day At The Seaside for Kids Photo Riddles**

In the water you may find a fish or a boat  
But right now try finding a bird having a float!

They are tasty to drink, which is always the plan  
If someone littered help find an empty soda can!

Crabs can crawl in the ocean or crawl on the sand  
Try finding a crab shell to hold in your hand!

If you build one to last, it will always stand tall  
Try to find a sand castle, but don't make it fall!

It won't matter if they're all tall or rather quite short  
Find some strangers nearby who are playing a sport!

If they don't look like feet, then you might get the hint  
Find a place in the sand showing animal prints!

They are useful to carry your things with great ease  
Look for old plastic bags blowing in the breeze!

You would not want to eat one-they don't taste like bread  
But be sure to find a rock larger than your head!

Lying out is relaxing without so much as a peep  
Find a stranger enjoying their afternoon sleep!

If you're lucky this won't be too tough to demand  
Capture a teammate's name written down in the sand!

If you're buried in sand, it won't mean you're dead  
Just make sure that you're buried up to your head!

Certain styles are common, and that is a fact  
Try to find a pair of sunglasses but not quite black!

It may not be the thing that you need  
Still it's easy to stumble upon some green seaweed!

When the birds fly on in the windier weather  
They may shed a bit, so look out for a feather!
