

Seaside Photo Scavenger Hunt – Clues

They slide between toes one and two
Protects your feet from heat and can go in water too

This is not a home for a princess or prince
You build it with a bucket and make window finger prints

Dude, Hang 10!, Kowabunga!, Right On!
Get up on the wave and ride until it's gone

Protection from the sun is what you need
Put some on your body to be safe indeed

Humans can't breathe underneath the sea
But use one of these and you'll breathe free

Throw out the line to catch a meal
when you feel a tug, get busy with the reel

If you need simple protection from the sun
This stays on your head while you're having fun

Normally used to keep out of the rain
At the beach this helps protect from sun rays and sand grains

Remember this, I'm suggesting to you dude
Else it's a bad dream, and you're the one who's nude

At the end of play time when you decide to flop
Lay this on the ground and lay on top

If you get bored just get lost in the pages
You'll read stories of knights and spies and sages

A spinning disc made of metal or plastic
Throw it with a friend - you'll be ecstatic

You can hear voices from far away
Just tune it in to get the news of the day

Will save you in the water if you start to drown
And has a whistle that can make a very loud sound
